# KEURIG®

Work doesn't start for many of us until we've had that first cup of coffee. But good java isn't just important to productivity; it can affect morale, too.

Equipping the break room or office kitchen with a quality coffee maker also keeps your team onsite. Taking the guesswork out of choosing the right machine option for your office all comes down to a few key factors:

Number of employees using the machines on a daily basis

Coffee and tea preferences among employees

Office setup and company culture

And with a growing number of employees citing greener initiatives as important to them, Keurig is proud to offer the Kcycle® recycling program. Used K-Cup® pods are sent back in prepaid recovery bins, which means that everyone's daily cup not only tastes good, but does good, too.

Need more direction about which specific coffee maker to choose? Check out the brewers in these pages; they are sure to satisfy almost any business' needs.

# FRESH MILK DELIVERY

Weeks Lerman offers a “truck to table” milk delivery service working with trusted partners bringing the nostalgia of the “milkman” back and putting the customer first. Our delivery includes direct to your refrigerator service.

Our partners have their own dairy farm and their cows are laid back and loving life. They graze outdoors from April until November, and during the winter they eat farm-grown corn and hay. The cows also get silage and a few pounds of grain each day.

They don't use artificial growth hormones to boost milk production or plant crops with genetically modified seeds. Our partners process their milk as little as allowable to keep the important enzymes and “good” bacteria there to work for you.

We offer regular, skim, 1%, 2%, chocolate, almond and half & half in a variety of sizes. Regular (non organic grass fed) milk products are also available. Call for pricing today.

# BREAKROOM, LUNCHROOM AND COMMON AREA FURNITURE

To create a better workplace, it is important to provide space within your office to allow employees to come together over food and drink. We have a wealth of experience creating great lunchroom, breakroom and common area spaces to meet your budget, aesthetic and workplace requirements.

Featuring furniture from companies such as Knoll, National, Global, HON, KI, Exemplis and many others. We offer free design and project management services.
